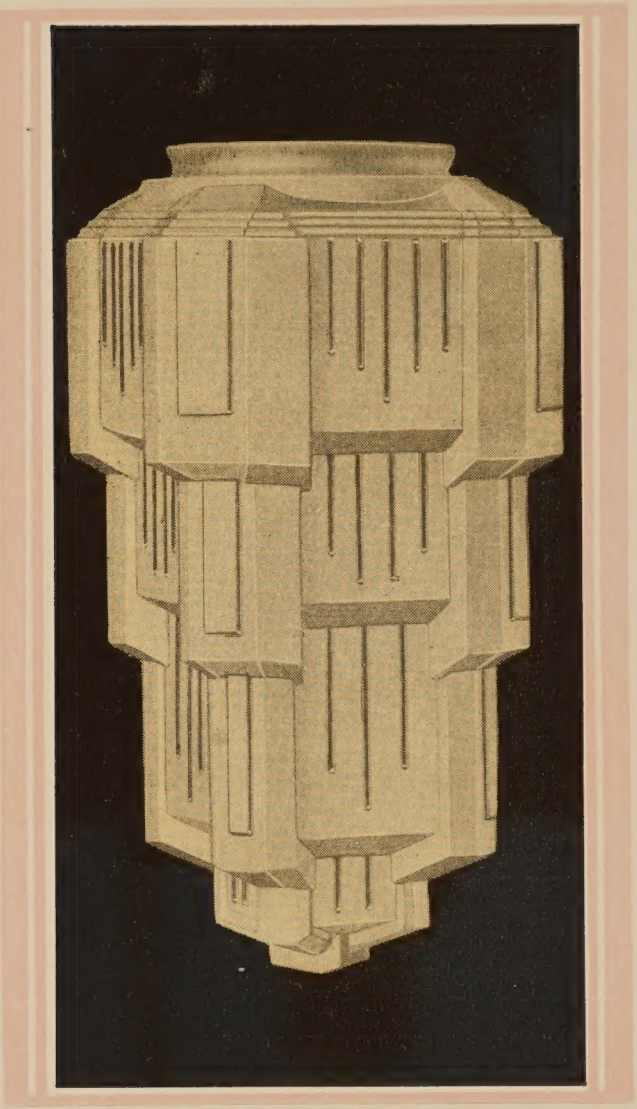
Nuite Black Lined

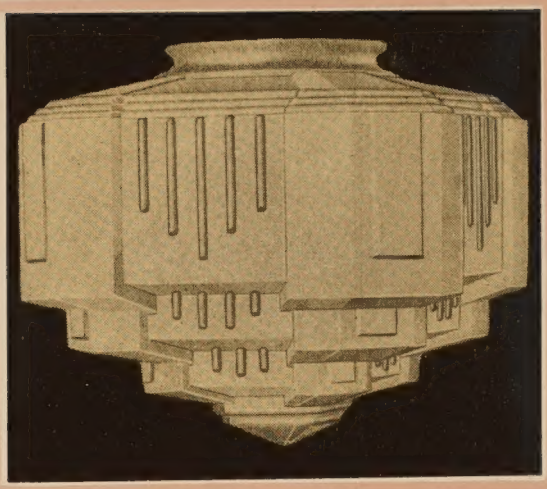
White and black. So much in demand today. For the store wanting that touch of Modern Lighting.



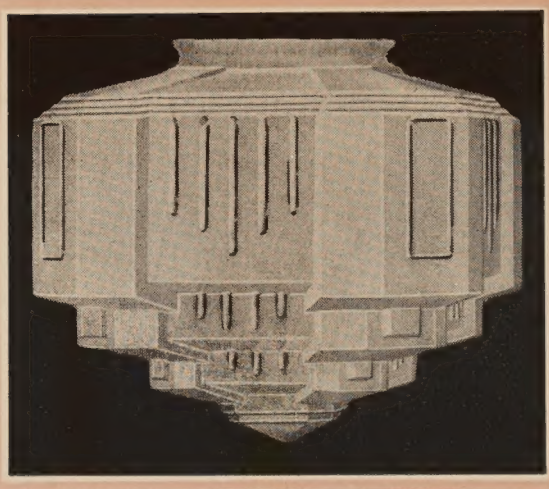
No. 8917

Nuite Ivory

Mellow but with sufficient color to bring out the graceful contours of the TOWER.



Ivory



French Crystal

For the store that requires brilliancy in lighting French Crystal has that sparkling effect of the old prisms.

MODERN ARCHITECTURE of today has undergone quite a change with the result that Lighting, an important factor in bringing out the best workmanship of the architect, also has had to keep pace.

In the Tower Unit one finds that grace of lines to harmonize with the modern trend, while at the same time light output and efficiency is not lost.
